	Urgent	**Not Urgent**
Important	**Do - (Your MVP)** ● Add functionality for adding new entries for an internship/job and the application status ● List all applications sorted by deadline and be able to modify entries as needed ● Show upcoming deadlines for a specified time period (e.g. next 14 days)	**Schedule - (For V2.0+)** ● Pull new internship opportunities from an API ● Interactive menus (e.g. choose 1 for Option 1, 2 for Option 2, etc.) instead of typing everything in one long command ● Tracking OA dates separately from internship due dates
Not Important	**Delegate - (Use a library)** ● Use ntfy for push notifications instead of building my own system ● Cron to check status every day instead of writing my own checker ● Calculate time until internship due date using date command in Bash	**Delete - (Cut it)** ● Syncing with something like Google calendar ● AI implementation (e.g. reading emails for user) ● GUI
